PROFESSIONAL SUMMARY

Full Stack Developer and final-year Computer Science Engineering student who **designs, builds, and deploys** scalable web applications and REST APIs using the **MERN stack**. Implements authentication, authorization, and real-time communication while optimizing backend performance and frontend responsiveness for production environments.

EDUCATION

D.Y. Patil College of Engineering and Technology

Kolhapur, India

B.Tech in Computer Science (AI & Machine Learning)

Aug 2022 – May 2026

- **CGPA: 8.1** | Relevant Coursework: Data Structures, Algorithms, DBMS, OOP, OS, Computer Networks

PROJECTS

Real-Time Ride Sharing (Uber Clone) | MERN, Socket.io, Redis | Live | GitHub

Nov 2025 – Dec 2025

- Architected a **real-time tracking system** using Socket.io and Redis, slashing event latency by **40%** through optimized state synchronization and event-driven architecture.
- Implemented JWT-based RBAC and integrated Google Maps APIs to optimize routes, reducing route calculation time by **35%** and enabling automated fare estimation using geocoding data.

Email-Leave System | Node.js, IMAP, MongoDB, Tailwind | GitHub

Aug 2025

- Automated HR workflows with a custom **IMAP parsing engine**, reducing manual processing by **70%** and optimizing data retrieval with **MongoDB compound indexing**.
- Developed a responsive **Tailwind CSS** dashboard that boosted user engagement by **35%** through streamlined data visualization and intuitive UI workflows.

Movies+More | React.js, Redux Toolkit, TMDB API | Live | GitHub

Oct 2024 – Nov 2024

- Engineered a high-performance **React SPA** utilizing Redux Toolkit for global state, improving load times by **30%** via lazy loading and route-based code splitting.
- Integrated **TMDB API** with asynchronous Redux Thunks to handle high-volume data fetching and seamless pagination for a catalog of 10k+ titles.

EXPERIENCE

Frontend Developer Intern

Oct 2024

Mirasung Technologies

Remote

- Migrated legacy UI components to a modular React architecture, reducing code redundancy by **20%**.
- Delivered **5+ production features** within Agile sprints and improved Lighthouse performance scores by **25%**.

Team Coordinator (MLSA)

Jul 2025 – Present

Microsoft Learn Student Ambassadors

India

- Led full-stack development workshops, mentoring **200+ students** on Git, deployment, and software engineering practices.
- Coordinated AI-focused hackathons, promoting collaboration and open-source contributions.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C

Web: React.js, Node.js, Express.js, Redux Toolkit, Tailwind CSS, Bootstrap, Socket.io

Databases: MongoDB, MySQL

DevOps/Cloud: AWS EC2, Docker, CI/CD, Linux

Tools: Git, GitHub, Postman, Vercel, Render, VS Code

ACHIEVEMENTS

Runner-Up – QHackathon: Recognized for rapid prototyping and solution delivery in hackathon time constraints.

Microsoft Learn Student Ambassador: Selected to lead student developer initiatives and technical communities.
