PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building web applications using **Java, Spring Boot, Spring MVC, Spring Security, JPA/Hibernate, and RESTful APIs**. Strong frontend experience with **React.js, JavaScript, HTML5, CSS3, and Bootstrap**, with practical experience in backend web development, authentication, database operations, API integration, and responsive UI development.

EDUCATION

D.Y. Patil College of Engineering and Technology

Kolhapur, India

B.Tech in Computer Science (AI & Machine Learning)

Aug 2022 – May 2026

- **CGPA: 8.2** | Relevant Coursework: Data Structures, Algorithms, DBMS, OOP, OS, Computer Networks

TECHNICAL SKILLS

Languages: Java, JavaScript, Python

Backend: Spring Boot, Spring MVC, Spring Security, REST APIs, JPA/Hibernate, JWT, Node.js, Express.js

Frontend: HTML5, CSS3, React.js, Redux Toolkit, Bootstrap, jQuery

Databases: MySQL, PostgreSQL, MongoDB

Tools: Maven, Git, GitHub, Docker, Linux, Postman

EXPERIENCE

Software Developer Intern

Jan 2026 – Jun 2026

Envision Pvt. Ltd.

Remote

- Delivered **8+ full-stack features** with **Java, Spring Boot, REST APIs**, frontend interfaces, and database operations to support business workflows.
- Developed **15+ REST APIs using Spring Boot**, handling request validation, authentication, business logic, database queries, and structured error responses.
- Diagnosed frontend-backend issues by tracing **API requests, backend logic, and database operations**, resolving data-flow defects and improving reusable components.

PROJECTS

Job Portal System | Java, Spring Boot, Spring Security, JPA, PostgreSQL | [Live](#) | [GitHub](#)

Nov 2025

- Developed a **dual-role job portal** for Applicant and Employer workflows covering profile management, job posting, applications, candidate management, and status tracking.
- Engineered **RESTful APIs** for applicant, employer, job posting, and application workflows with **Spring Security** role-based access control across controller, service, repository, and security layers.
- Designed **User, Job, and Application entities** with Spring Data JPA and PostgreSQL, enabling application lifecycle tracking from submission through employer review and status updates.

Zovia — Real-Time Ride Sharing | MERN, Socket.io, JWT, Leaflet | [Live](#) | [GitHub](#)

Nov 2025 – Dec 2025

- Engineered a real-time ride-sharing platform supporting **2 user roles**, automated driver dispatch, fare estimation, OTP verification, live location tracking, cancellation, and trip completion.
- Coordinated **6+ Socket.io events** covering driver availability, ride requests, acceptance, location updates, status changes, and cancellation with JWT-based authorization.
- Applied **MongoDB geospatial queries**, Leaflet, and OpenRouteService for route mapping and driver discovery, with a **5-state ride lifecycle**, paginated history, and participant-level trip authorization.

Movies+More | React.js, Redux Toolkit, JavaScript, HTML5, CSS3, Bootstrap | [Live](#) | [GitHub](#)

Oct 2024 – Nov 2024

- Created a **responsive React.js SPA** with JavaScript, HTML5, CSS3, and Bootstrap, integrating the TMDB REST API to browse and discover **10k+ movie titles**.
- Implemented **search, filtering, and pagination** with Redux Toolkit and asynchronous Redux Thunks for client-side state management and API integration.
- Enhanced frontend performance and UX through **lazy loading and route-based code splitting**, maintaining responsive interfaces across application views.

ACHIEVEMENTS

350+ LeetCode Problems: Solved problems across Data Structures and Algorithms, earning **3 LeetCode badges** for consistent problem-solving and achievement.

Runner-Up – QHackathon: Presented a software solution under competitive hackathon constraints.

Microsoft Learn Student Ambassador: Organized technical learning initiatives and developer sessions for **200+ students**.
